MAZDA RANGE FINDER

Everything we do is daring, ingenious and fun. Our cars all have that extra-special 'Zoom-Zoom' factor: sports-inspired design and motoring in their soul.

Pushing back the boundaries, setting new standards in style and comfort: that's the Mazda way. And when it comes to performance and safety, we're a car maker you can count on.

How do we infuse this adventurous spirit in everything we do? See for yourself by visiting us online at www.mazda.co.uk or joining us on Facebook - search 'ExperienceMazda'

Company car drivers - calculating your BIK

Benefit-in-kind costs depend on two factors - the P11D value of your vehicle and the level of CO₂ the vehicle emits. CO₂ levels determine the % of P11D value that is used as the 'taxable value' allocated against your company car. The Mazda6, for example, offers high levels of refinement and specification value combined with low levels of CO₂ emissions.

Example

Mazda6 2.2 5dr TS Diesel 129ps P11D value £19,830 (Total Retail Price) CO₂ emissions 133g/km

Equates to a taxable value 20% of P11D i.e. £3,966

BIK tax @ 40% = £1,586.40 per year

Use the table below to determine your BIK (remember your tax band - either 20% or 40%) for any of the Mazda range. CO₂ levels are stated for all passenger car models within this price list.

Taxable percentages of P11D value

CO ₂ g/km	2012-13

Insurance Groups

All insurance groups stated have been awarded using the latest '50 Group' rating system. Please note that insurance group ratings are purely advisory. They are used by insurers as one of the factors in calculating premiums. Insurers are not required to follow the advisory group ratings and they may depart from them if they so wish. 'A' suffix denotes security features that meet the required standard for the allocated insurance group. 'E' suffix denotes security features that exceed the required standard for the allocated insurance group.
