An independent automotive warranty specialist, Warranty Direct, rated Mazda number one in a study of over 450,000 vehicles across 33 manufacturers. Any problems are unlikely but just in case, only with the exclusive Mazda ZZ+ package, are vehicles provided with a minimum of one year's, unlimited mileage warranty that is backed by Mazda Motors UK Ltd. Assuming the terms and conditions of the cover have been met, your warranty will cover all mechanical and electrical factory fitted components of the vehicle except some specific components. Any ZZ+ approved Mazda dealer will be able to help you with this.

### + Finance and vehicle history check

Every Mazda ZZ+ vehicle comes with a comprehensive vehicle check. You can be sure your Mazda has no adverse data listed against it and that you're aware of its full history.

The check produces an extensive online report and covers information such as; plate history, finance data, stolen data, condition check, registration date and year of manufacture, full vehicle description, number of keepers and dates of change, cross reference between the Vehicle Identification Number and the Vehicle Registration Mark, import/export data, scrapped indicator, high-risk data, previous searches and enquiry audit trail, colour changes and CO2 emissions. A confirmation certificate is proof of the car's 'all clear' status.

### + Mileage check

With Mazda ZZ+ every vehicle's history is checked against the National Mileage Register Database to search through millions of vehicle records. It provides invaluable information to protect against 'clocking' and helps determine whether a car has more miles on the clock than it is in fact showing.
